PLANNED UNIT DEVELOPMENT (PUD) REGULATIONS

Section 3.4.7. Planned Unit Development (PUD)

A. General.

1. A Planned Unit Development (PUD) is an area designed for development as a cohesive unit, where uses and innovations in design and layout of the development provide public benefits when compared to standard zoning or uniform lot and block subdivision patterns and design features.
2. In a PUD, the various land use elements are designed so that they interrelate with each other. The boundary between a PUD and adjacent land area(s) requires particular attention to ensure transition and that land use patterns are compatible.
3. Permitted uses in a PUD must be consistent with the Comprehensive Plan future land use classification for the site(s) in question.

B. Proposed and Intent. The purpose and intent of a PUD are to:

1. Innovation in Design. To encourage innovations in residential, commercial, mixed-use, and industrial development so that the needs of the population may be met by greater variety in type, design and layout of buildings and land uses and by the conservation and more efficient use of the space.
2. Appropriate Land Use. To promote the most appropriate use(s) of the land.
3. High Quality Development. To improve the design, character, and quality of new development.
4. Infrastructure. To facilitate the adequate and efficient provisions of roads and utilities.
5. Increased Compatibility. To achieve compatibility with surrounding neighborhoods and developments.
6. Provision of Open Space. To preserve open space as development occurs.
7. Clustering of Uses. To provide for necessary commercial, recreational, and public facilities that are conveniently located to housing.
8. Increased Flexibility. To provide for flexibility in design for new development and future redevelopment.
9. Comprehensive Plan. To achieve the goals of the Comprehensive Plan.
10. To provide a method for previously approved Planned Development Projects to continue to develop under the terms of an approved PDP Development Order and to allow modification to existing PDP approvals under the PUD procedures.

C. Minimum Parcel Size. The minimum parcel size for a PUD is:

1. Non-residential or mixed-use PUD. One acre.
2. All other PUDs. Three acres.

D. PUD approval steps. The PUD review and approval process includes:

1. A rezone to the PUD zoning district, which establishes the densities, intensities, and permitted uses within the PUD; and
2. A Master Concept Plan (MCP), which establishes the design, layout, and dimensional standards of the PUD.

E. Application and submittal requirements. Application and submittal requirements for a PUD are established in Sections 3.1.4 through 3.1.8 of this Article. In addition, a PUD requires:

1. An application for a rezone to the PUD zoning district; and
2. A Master Concept Plan application.
3. Submittal of the specific PUD application requirements listed in subsection G., below.

A PUD application for parcels 10 acres or larger may apply for a rezone to the PUD zoning district without submitting an MCP for concurrent review and processing.

F. Preapplication conference required. A pre-application conference shall be held with the Community Development Department prior to the submittal of a PUD. The applicant shall indicate the requested PUD zoning district and a sketch of the PUD Master Concept Plan, if applicable.

G. Specific PUD Submittal Requirements. A PUD application shall include the following:

1. A Letter of Intent, including:
 - a. Reasons the PUD procedure is more desirable than a conventional plan;
 - b. General site description including acreages; and
 - c. General project description.
2. A PUD Master Concept Plan indicating:
 - a. Location of the uses within the site;
 - b. Dimensional standards such as height, setbacks, and lot sizes;
 - c. Vehicle circulation patterns, parking areas, and points of access;
 - d. Pedestrian and bicycle circulation with links to other external path systems;
 - e. Open space plan; and
 - f. Landscape and buffer plans.
3. Sample formation of HOA or other organization to operate and maintain open space and other on-site public or private improvements.
4. Phasing plan, if applicable.

H. PUD Zoning Districts. Each PUD shall be rezoned to one of the following designations, based on proposed development:

RPUD - Residential PUD
CPUD - Commercial PUD
IPUD - Industrial PUD

MXPUD - Mixed Use PUD
PFPUD - Public Facilities PUD

the proposed PUD zoning district must meet the criteria for rezones as set forth by this Code.

I. Review Standards and Criteria.

1. Every PUD shall be in conformance with the City Comprehensive Plan. The maximum density or intensity within any PUD shall be consistent with the future land use designation of the site as determined by the Comprehensive Plan.
2. Specific uses, densities, and intensities for each PUD are established in the PUD rezone ordinance. The approved uses, densities, and intensities for a PUD shall take precedence over other standards and requirements in these regulations. The uses approved in a PUD shall be permitted uses.
3. Specific bulk, area, and dimensional standards for each PUD are approved in the MCP for a PUD and shall take precedence over the standards and requirements in these regulations for development that is not within an approved PUD. Elements to be evaluated for a PUD shall include:
 - a. Appropriateness of the proposed or density or intensity of the development;
 - b. Internal and external compatibility of the development and surrounding uses;
 - c. Transition and separation between surrounding uses;
 - d. Vehicular and pedestrian circulation patterns;
 - e. Arrangement and functionality of open space;
 - f. Access points;
 - g. Public amenities, if applicable;
 - h. Additional amenities that will serve the project; and
 - i. Details and design of internal and external buffers.
4. Open Space.
 - a. For all PUDs except for IPUDs, a minimum of twenty-five percent of the total land area shall consist of common open space. The City may consider a request by the applicant for less than twenty-five percent common open space when deemed appropriate because of size, location, or nature of the proposed development.
 - b. The amenities or off-site improvements shall be utilized by the City or developed by the applicant to mitigate the reduction of open space or to fulfill the recreational needs of the City.
 - c. Areas that Do Not Count as Open Space. Parking and loading areas, streets, and rights-of-way shall not count toward usable open space.
 - d. Areas that Count as Open Space. Water bodies, surface water retention areas, preservation areas, and riparian areas that are preserved as open space shall count towards this minimum standard, even when they are not usable by or

- accessible to the residents of the PUD. All other open space shall be conveniently accessible from all occupied structures in the PUD.
- e. Improvements Required. All common open space and recreational facilities shall be shown on the PUD Plan and shall be constructed and fully improved according to the development schedule established for each development phase of the PUD.
 - f. Landscaping along Sidewalks. All sidewalks within a PUD must be shaded by canopy trees. The area used for shading the sidewalks can be considered as part of the minimum open space requirement.
 - g. Maintenance of Open Space. All open space shall continue to conform to its intended use, as specified on the PUD Master Concept Plan. To ensure that public open space identified in the PUD will be used as open space, restrictions, easements, or covenants shall be recorded in deeds or the open space areas may be dedicated to the public to ensure their maintenance and to prohibit the division of any public open space. Any subdivision of land will require a Property Owners Association (POA) or Home Owners Association (HOA) to ensure that open spaces within a PUD are maintained. The City is not required to accept dedication of open space areas.
5. PUD Perimeter Buffers. The boundary between a PUD and adjacent land uses shall be landscaped with a buffer that has sufficient width and shall include screening to ensure a proper transition and increase compatibility between land uses. The buffer shall be approved by City Council.
 6. Street Standards. All streets, roads, and drive aisles shall be designed and constructed in conformance with the City Engineering and Design Standards.
 7. Phasing. When a PUD is developed in phases, a proportional amount of the open space and recreations areas shall be included in each phase, in order to comply with the open space requirements of this chapter at the completion of each phase of the development.
- J. Master Concept Plan and concurrent Preliminary Subdivision Plan review. The approved Master Concept Plan may be used for Preliminary Subdivision Plan approval, as defined in Article 10, provided required details and information for PSP review are included in the MCP.
- K. Amendments to Planned Unit Developments.
1. Administrative Amendments. Amendments to an approved PUD may be approved administratively if they meet the following criteria:
 - a. Density or intensity is increased by less than ten percent.
 - b. Open space is not decreased by more than five percent.
 - c. There are no changes to any condition of approval.
 - d. There is no change in permitted uses or types of structures.
 - e. Dimensional standards are changed by no more than ten percent.
 2. Review Standards for amendments. An approved PUD Master Concept Plan may be amended if the applicant demonstrates that the proposed modification:

- a. Is consistent with the efficient development and preservation of the entire PUD;
 - b. Does not affect in a substantially adverse manner either the enjoyment of the land abutting upon, adjoining or across a street from the planned unit development;
 - c. Is not granted solely to confer a special benefit upon any person;
 - d. Does not contain proposed uses that detract from other uses approved in the PUD;
 - e. Does not contain an open space plan that differs substantially in quantity or quality from the originally approved plan; and
 - f. Contains streets and utilities that are coordinated with planned and existing street and utilities for the remainder of the PUD
- OR

3. Amendments that require City Council Approval. Any amendment to a PUD that does not meet the criteria in subsection 1 through 2, above must be approved by the City Council.

L. Effect of PUD approvals.

1. PUD zoning. A rezone to a PUD zoning district shall run with the land.
2. Master Concept Plans. A MCP shall be valid for any time period established in the conditions of approval for the MCP. If a specific time period is not specified then the MCP shall run with the land.

OR

3. If a Site Development Plan, a building permit for vertical construction, or a subdivision plat has not been approved within 10 years, the Master Concept Plan shall be null and void, unless an extension has been approved by City Council.

- LI. Extensions. A PUD may receive one extension that is valid for two years. Upon expiration of the extension, the Master Concept Plan shall be null and void.
